New Year, New Possibilities!

Cut Interview Costs for Your Company

Pinching pennies isn't just for personal finances. We understand the importance of keeping your company's budget in check and we're here to help you do just that. One of the major costs a company endures comes from the hiring process. Part of the [value we provide](#) as your recruitment firm is the option of pre-recorded interviews with the candidates we submit to you. You can watch candidates answer questions that you have provided ahead of time as you view their resumes. It can give you more insight into a candidate before bringing them in for an interview. This amazing service is offered at no cost to our clients. Dr. Michael Guterres, UAV engineering manager at a major aerospace company, had this to say about our service:

"You are definitely at the top when it comes to using technology. This is a very informative way to give me a perspective on the candidates before I even speak with them on the phone."

The video interviews we offer is a service designed for you to save time and money in the hiring process. Contact us today to learn more about implementing this technology in your next job candidate search.
